Our Portfolio & Sector Focus

Our portfolio reflects BASCORP Group's commitment to partnering with businesses across strategically important sectors where capital, expertise, and long-term relationships can support sustainable growth and create enduring value.

Healthcare & Pharmaceuticals

BASCORP seeks opportunities across healthcare and pharmaceuticals, supporting businesses involved in healthcare services, medical products, pharmaceutical development, and related technologies. Our focus is on businesses with strong fundamentals, scalable models, and the potential to contribute to the evolution of healthcare delivery.

Aviation

Our aviation interests extend across businesses and opportunities connected to air transport, aviation services, infrastructure, and related commercial activities. BASCORP seeks to support operators and businesses positioned to benefit from the continued development of regional and international connectivity.

Construction & Trade

BASCORP participates in construction, infrastructure, contracting, and related trading activities, supporting businesses that contribute to the development of commercial, industrial, and urban infrastructure. We seek opportunities where strong execution capabilities and strategic market positioning can generate sustainable growth.

Telecommunications

BASCORP's interests in telecommunications focus on businesses and opportunities connected to digital connectivity, communications infrastructure, technology-enabled services, and related sectors. We recognise the strategic importance of connectivity and seek investments capable of benefiting from long-term digital transformation.

Private Equity

Private equity is a core component of BASCORP's investment activities. We identify businesses with strong fundamentals, growth potential, or opportunities for strategic development and seek to create value through capital, governance, strategic support, and long-term partnership.

Real Estate

BASCORP considers real estate opportunities across selected commercial, residential, hospitality, mixed-use, and development assets. Our approach combines disciplined investment analysis with active portfolio oversight, with a focus on quality assets, strategic locations, sustainable returns, and long-term value creation.

Our Approach Across Sectors

While our sector interests are diverse, our investment approach remains consistent: **disciplined capital allocation, strong governance, prudent risk management, strategic partnership, and a long-term perspective.**

We seek opportunities where BASCORP can contribute more than capital—bringing **strategic insight, commercial relationships, governance, and execution support** to help businesses and assets realise their full potential.
